

Applied Behavior Tech (FT)

What you'll do

Working in one of our residential homes alongside our experienced care team, you'll implement individual treatment plans tailored to meet the needs of boys and girls ages 10-18 in our program. You'll mentor, join in recreational activities, and create a warm, loving home for teens who need a refuge.

In addition to supporting normal daily operations of the residential unit, ABT staff coordinate with the Program BCBA to implement focused behavioral intervention based on the principles of applied behavior analysis (ABA). ABT technicians facilitate social interactions, as well as design and conduct exciting daily small group activities in a fun, engaging environment.

Compensation + Collaboration

We're starting team members between \$19-23 per hour with a generous benefits package. You'll join a passionate, purposeful, and collaborative team who is committed to doing what it takes to give youth a brighter future.

Let's be honest...

We won't sugarcoat this. Some days are going to be tough. Those in our care have been abused and neglected, have histories of mental health challenges, and some are involved in the juvenile justice system. Their trauma is real. They're short on trust and sometimes quick to anger. They're not used to caring adults who show up day after day.

But you will. You were built for this.

Hours: 4 weekdays and every other weekend, rotating between 1st and 2nd shift.

Qualifications:

- Applicant must be at least 20 years of age
- High school diploma required
- Must have a valid driver's license
